## Experience:

GAM Information Systems

Colts Neck, NJ

*Internship*

Jun 2023 – Dec 2023

- Collaborated closely with the company founder and web development team to redesign and enhance the company website, improving user experience and functionality.
- Utilized project management tools to track progress, assign tasks, and meet deadlines, contributing to a smooth and efficient workflow.
- Implemented modern design principles and user interface (UI) best practices, resulting in a visually appealing and intuitive website.
- Assisted in the integration of new features and functionalities, enhancing overall user engagement and satisfaction.

Harriet L. Wilkes Honors College

Jupiter, FL

*Undergraduate thesis*

Spring 2024

Created a comprehensive website for awareness of the Fontan procedure, using proper UI/UX techniques to disseminate insights and information. This resource enhances understanding and awareness among healthcare professionals and the broader community.

Tools Used: HTML, CSS, JavaScript, Bootstrap

*The Fontan* ([jfarrell8702.github.io/Fontan-Website](https://jfarrell8702.github.io/Fontan-Website))
